

Nacole B. Hinton

Vice President, Human Resources and Administration

As Vice President, Human Resources & Administration, Ms. Hinton oversees the American Chemistry Council's (ACC) Human Resources, Information Technology, and Business Services functions as well as guides the creation and execution of ACC's people strategies, programs and initiatives. Primary among her responsibilities is the development of tools and systems to provide critical operational information to the staff of ACC, for purposes of making actionable strategic and operational decisions. Ms. Hinton also serves as the plan administrator for ACC's retirement savings plan and other broad-based welfare plans.

Prior to joining ACC, Ms. Hinton was a Principal with PRM Consulting Group, Inc. where she served as Performance Management Practice Leader with executive level involvement in the development and coordination of long-range strategies to achieve business growth and enhanced profitability in the not-for-profit and government market sectors. Previously Ms. Hinton was National Vice President of Human Resources for the American Diabetes Association, where she managed the Association's \$66 million employee budget and served as plan administrator for the organization's retirement and welfare plans.

Earlier in her career, Ms. Hinton was a Senior Consultant with PricewaterhouseCoopers where she assisted clients in improving performance by developing business and technological solutions that provided increased efficiency and productivity. Ms. Hinton began her career with GEICO, Inc., as a Benefits Analyst.

A former Human Resources Professional Excellence Award honoree, Ms. Hinton earned both an MBA in finance and a BBA in business management from Howard University.
