CLEANING AND DISINFECTION

Chemistry contributes 75% of the value of material inputs in cleaning compounds.

Intermediate Products

- Sodium bicarbonate
- Calcium carbonate
- Chlorine
- Propylene
- Biocide chemistries
- Sodium hydroxide
- Ethylene, ethylene oxide, benzene
- Anionic solutions
- Ammonium chloride
- Isopropyl alcohol
- Ethanol/ethyl alcohol

Chemical Plant

Oil & Gas, Minerals

Ethane, Propane, Naphtha, Ammonia, Methanol

Cleaners and disinfectants

- Household and commercial bleach
- Hand sanitizers
- Dish soap and laundry detergents
- Spray disinfectants
- Surface cleaners
