2020 GLOBALCHEM REGISTRATION NOW OPEN

The 2020 agenda includes sessions about expectations for TSCA implementation in the next five to ten years; 2020 priorities for EPA’s Office of Chemical Safety and Pollution Prevention; international trade policy; emerging contaminants (e.g., PFAS and microplastics); challenges and opportunities raised in SAICM/ICCM5; global data sharing and much more.

Before the official conference opens, there will be an optional workshop day on Monday, April 6, for attendees to explore the fundamentals of the amendments to TSCA, including:

The TSCA Framework for Existing Chemicals at Year 3
What to Submit and How to Work with Your PMN Manager
Manufacturer Requested Risk Evaluations
Data Sharing Considerations
Understanding Confidential Business Information
Hazard Characterization 101

Beveridge & Diamond PC is the principal sponsor of this year’s conference and exhibition, Bergeson & Campbell PC is sponsoring the pre-conference workshop and Chemical Watch is the media sponsor.

To learn more about the conference agenda and to register, visit http://www.globalchem.org. For real-time news updates from the conference, follow ACC (@AmChemistry) on Twitter, and join the conversation on Facebook, Twitter, and LinkedIn by using the hashtag #GlobalChem. You can also follow along through ACC’s blog American Chemistry Matters. Members of the media who wish to register should contact Jon Corley at jonathan_corley@americanchemistry.com or 202-249-6509.

The American Chemistry Council (ACC) represents the leading companies engaged in the business of chemistry. ACC members apply the science of chemistry to make innovative products
and services that make people's lives better, healthier and safer. ACC is committed to improved environmental, health and safety performance through Responsible Care®; common sense advocacy designed to address major public policy issues; and health and environmental research and product testing. The business of chemistry is a $553 billion enterprise and a key element of the nation's economy. It is among the largest exporters in the nation, accounting for ten percent of all U.S. goods exports. Chemistry companies are among the largest investors in research and development. Safety and security have always been primary concerns of ACC members, and they have intensified their efforts, working closely with government agencies to improve security and to defend against any threat to the nation’s critical infrastructure.
