ACC LAUNCHES ADS HIGHLIGHTING SEN. BILL CASSIDY AND REP. GARRET GRAVES

Ads emphasize Cassidy's and Graves's leadership for Louisiana small businesses and families

WASHINGTON (July 8, 2019) – The [American Chemistry Council](http://www.americanchemistry.com) (ACC) will begin running issue advertisements highlighting Sen. Bill Cassidy (R-LA) and Rep. Garret Graves (LA-06) for their efforts to lower taxes and protect Louisiana families and small businesses.

“Dr. Cassidy and Rep. Graves are working together to lower taxes on Louisiana families and small businesses so they can continue to grow and create good-paying jobs in Louisiana and America,” said [ACC President and CEO Cal Dooley](http://www.americanchemistry.com). “Their joint efforts have resulted in lower taxes for individuals, families, and small businesses, allowing them to keep more of their hard earned money and keep America’s economy growing.”

The television and radio ads for Sen. Cassidy and Rep. Graves will run for two weeks throughout Louisiana, primarily in Baton Rouge, and will encourage constituents to contact the offices of the senator and congressman to tell them to keep up the good work.

The American Chemistry Council (ACC) represents the leading companies engaged in the business of chemistry. ACC members apply the science of chemistry to make innovative products and services that make people's lives better, healthier and safer. ACC is committed to improved environmental, health and safety performance through Responsible Care®, common sense advocacy designed to address major public policy issues, and health and environmental research and product testing. The business of chemistry is a \$526 billion enterprise and a key element of the nation's economy. It is the nation's largest exporter, accounting for fourteen percent of all U.S. exports. Chemistry companies are among the largest investors in research and development. Safety and security have always been primary concerns of ACC members, and they have intensified their efforts, working closely with government agencies to improve security and to defend against any threat to the nation's critical infrastructure.
