## **ACC LAUNCHES ADS HIGHLIGHTING SEN. STEVE DAINES** *Ads emphasize Daines's leadership for Montana's families and small businesses*

WASHINGTON (July 8, 2019) – The [American Chemistry Council](http://www.americanchemistry.com) (ACC) will begin running issue advertisements highlighting Sen. Steve Daines (R-MT) for his leadership on lowering taxes for middle class families and small businesses.

“Sen. Daines is fighting to lower taxes for families in Montana and the nation, which will allow them to keep more of their hard earned money,” said ACC President and CEO Cal Dooley. “Sen. Daines’s efforts in Washington have resulted in Montana’s small businesses being able to grow and hire more hard working employees.”

The television and radio ads for Sen. Daines will run for two weeks throughout Montana and will encourage constituents to contact the office of the senator to tell him to keep up the good work.

*The American Chemistry Council (ACC) represents the leading companies engaged in the business of chemistry. ACC members apply the science of chemistry to make innovative products and services that make people's lives better, healthier and safer. ACC is committed to improved environmental, health and safety performance through Responsible Care®, common sense advocacy designed to address major public policy issues, and health and environmental research and product testing. The business of chemistry is a \$526 billion enterprise and a key element of the nation's economy. It is the nation's largest exporter, accounting for fourteen percent of all U.S. exports. Chemistry companies are among the largest investors in research and development. Safety and security have always been primary concerns of ACC members, and they have intensified their efforts, working closely with government agencies to improve security and to defend against any threat to the nation's critical infrastructure.*
