AMERICAN CHEMISTRY COUNCIL APPROVES EIGHT NEW MEMBERS

COLORADO SPRINGS, CO (June 5, 2019) – The American Chemistry Council’s (ACC) Board of Directors approved the addition of six new Regular members at their annual meeting today, as well as one Affiliate member and one Associate member company.

Regular members approved today include:
- Corteva Agriscience, the agriculture division of DowDuPont, is the only major agriscience company completely dedicated to agriculture. They specialize in agricultural products, seeds and biotechnology solutions.
- CPS Performance Materials, a world leader in chemical light solutions providing light sticks, chemi-luminescent ammunition and infra-red devices to the US and NATO military forces, as well as other commercial and law enforcement markets.
- Indorama Ventures, one of the world’s leading petrochemical producers with a presence in 31 countries and 101 manufacturing facilities. The company specializes in Feedstock, PET, packaging, fibers and recycled products.
- MEGlobal Americas Inc., dedicated to manufacturing, supplying and marketing of merchant ethylene glycol which is a key raw material used in a wide variety of products and applications including polyester fibers and PET. Established in 2004, MEGlobal is a wholly-owned subsidiary of EQUATE Petrochemical Company.
- Messer North America, Inc., an industry leader in the manufacturing of industrial gases for over 120 years. Their gases are used in a wide variety of applications such as, steel, metal, chemicals, food, automobiles, electronics, medicine, research and environmental technology.
- Vantage Specialty Chemicals, Inc., a leading provider of natural based specialty ingredients focused on personal care, food, consumer and industrial end markets.

At the Affiliate level, ACC’s Board approved the addition of one new member:
- Quadra Chemicals Inc.

The Board also approved the addition of one new Associate member:
- The Valance Group

“ACC is very pleased to welcome these new member companies. Our continued growth reflects the sustained and historic expansion and strength of the domestic chemical industry,” said ACC
President and CEO Cal Dooley. “With the addition of these companies, our membership continues to diversify. They represent important industry sectors and join a large group of strong and committed companies, dedicated to advancing our industry’s policy priorities locally, nationally, and globally,” he added.

The American Chemistry Council (ACC) represents the leading companies engaged in the business of chemistry. ACC members apply the science of chemistry to make innovative products and services that make people's lives better, healthier and safer. ACC is committed to improved environmental, health and safety performance through Responsible Care®, common sense advocacy designed to address major public policy issues, and health and environmental research and product testing. The business of chemistry is a $526 billion enterprise and a key element of the nation's economy. It is the nation's largest exporter, accounting for ten percent of all U.S. exports. Chemistry companies are among the largest investors in research and development. Safety and security have always been primary concerns of ACC members, and they have intensified their efforts, working closely with government agencies to improve security and to defend against any threat to the nation's critical infrastructure.
