Re: Registration and Retroactive Engine Test Registration of the Sequence IIIH60 and IIIH70

The American Chemistry Council (ACC) Product Approval Protocol Task Group (PAP TG) reached consensus to initiate registration and retroactive registration of the Sequence IIIH60 and IIIH70 engine test. The current test registration fee of \$150 per registered test will apply. This engine test should be appropriately displayed in all data summaries; including documents such as Candidate Data Packages (CDPs).

According to correspondence with the ASTM Sequence III Surveillance Panel Chair, Sequence IIIH, IIIHA and IIIHB engine test stands were calibrated on April 15, 2016 and development testing of the Sequence IIIH 70-hr was completed on October 10, 2018. Therefore, PAP TG reached consensus to initiate registration and retroactive registration for the Sequence IIIH60 and IIIH70 through the ACC Monitoring Agency (ACC MA). Registration and Retroactive registration will be accepted through the ACC Monitoring Agency according to the instructions below.

Sequence IIIH60 and IIIH70 Registration and Retroactive Registration Instructions:

- Test sponsors may only request retroactive Sequence IIIH60 and IIIH70 registration with the ACC Monitoring Agency (ACC MA) from July 30, 2019 through January 1, 2020.
- Only operationally valid Sequence IIIH60 tests that started in calibrated stands on or after April 15, 2016 through January 1, 2020 are acceptable for retroactive registration. Only operationally valid Sequence IIIH70 tests that started in calibrated stands on or after October 10, 2018 through January 1, 2020 are acceptable for retroactive registration.
- Normal registration, as per the ACC Code of Practice, will be permitted for all Sequence IIIH60 and IIIH70 tests starting on or after July 30, 2019.

Questions regarding the registration and/or retroactive registration of the Sequence IIIH60 and IIIH70 should be directed to the [ACC MA](#). Comments/Questions regarding this Alert Bulletin should be directed to the [ACC PAP TG manager](#).
