

June 23, 2015

The Honorable John Boehner
Speaker of the House of Representatives
Washington, DC 20515

The Honorable Nancy Pelosi
Democratic Leader of the House of Representatives
Washington, DC 20515

Dear Mr. Speaker and Democratic Leader Pelosi:

More than 150 members of the American Alliance for Innovation (AAI) wrote on June 2, 2015 to the members of the Energy & Commerce Committee to offer support for The TSCA Modernization Act of 2015 (H.R.2576). That letter is attached. The undersigned members of AAI would also like to express their support for H.R.2576 as additional signatories to the June 2nd letter. Therefore, as the House heads to a floor vote on H.R.2576 tonight, please consider this letter an addendum to the attached June 2nd letter.

Sincerely,

American Petroleum Institute
Composite Panel Association
National Ready Mixed Concrete Association

cc: Members of the U.S. House of Representatives

June 2, 2015

The Honorable Fred Upton
Chairman, Committee on Energy and
Commerce
United States House of Representatives
Washington, DC 20515

The Honorable Frank Pallone
Ranking Member, Committee on Energy and
Commerce
United States House of Representatives
Washington, DC 20515

Dear Chairman Upton and Ranking Member Pallone:

We are writing as members of the American Alliance for Innovation (AAI) to thank you for your leadership and offer our support for H.R.2576 ("TSCA Modernization Act of 2015"), which was crafted in a bipartisan manner under both of your leadership, as well as that of Chairman John Shimkus and Ranking Member Paul Tonko. The AAI is an alliance of trade associations representing businesses both large and small from across the economy. We represent many major sectors of our economy, all along the chemicals value chain, including aerospace, agriculture, apparel, automotive, building and construction materials, chemical and raw material production, consumer and industrial goods, distribution, electronics, energy, equipment manufacturers, food and grocery, footwear, healthcare products and medical technology, information technology, mining and metals, paper products, plastics, retail, storage, and travel goods.

The regulation of how chemicals are used in commerce has a significant impact on each of our industries, the products that we make and/or the services we provide, and the millions of workers we represent. As your previous hearings on the Toxic Substances Control Act (TSCA) have demonstrated, it is clear that a more workable and effective national chemical regulatory program is needed to further ensure the safe use of chemicals, encourage innovation, and protect American jobs.

The organizations listed below are committed to updating TSCA, and we believe that H.R.2576 can help accomplish this goal. The bill reflects the input of many stakeholders and addresses key shortcomings in current law. We appreciate the thoughtful, bipartisan approach your Committee has taken to develop this legislation, and we support moving this important effort forward.

Sincerely,
