

## Product Approval Code of Practice

### ALERT

**To: Practitioners of the American Chemistry Council  
Product Approval Code of Practice**

**Date: December 1, 2003**

**Re: Sequence IIIG-A Registration**

On November 19, 2003, the American Chemistry Council Petroleum Additives Product Approval Protocol Task Group (PAPTG) agreed that the Sequence IIIG-A, an engine test, would be brought into the Product Approval Code of Practice. Accordingly, registration of the Sequence IIIG-A will start Tuesday, December 2, 2003 (12:01 a.m. EST).

Any Sequence IIIG test started from August 12, 2003, when the Sequence IIIG became a registered test, through December 1, 2003, may be retroactively registered as a Sequence IIIG-A test. Additionally, the Sequence IIIG-A may be dual registered with the Sequence IIIG. There is only one registration fee for dual registrations.
