

CODE BULLETIN C-32

American Chemistry Council Product Approval Code of Practice April 2005 Edition

**To: Practitioners of the American Chemistry Council
Product Approval Code of Practice**

**Original
Issue Date: February 22, 2006**

**Effective
Date: March 22, 2006**

**Re: Mack T-11 Accepted into
Product Approval Code of Practice – April 2005 Edition**

The American Chemistry Council's (ACC) Product Approval Protocol Task Group (PAPTG) reached consensus on February 9, 2006 to incorporate the Mack T-11 into the ACC Product Approval Code of Practice.

Registration of the T-11 may commence on March 22, 2006 at 12:01 a.m. (eastern). Additionally, any provisional or retroactive provisional T-11 registrations will automatically become officially registered tests effective March 22, 2006 at 12:01 a.m. (eastern). The ACC Monitoring Agency will begin the process to account for new pass fail parameters and finalize all T-11 registrations with recertified validity statements.

Any comments to this Code Bulletin (C-32) should be directed to the PAPTG Manager, [W.D. \(Doug\) Anderson](mailto:W.D. (Doug) Anderson) (email: Doug_Anderson@americanchemistry.com) Phone: (703) 741-5616).
