

SPEAKER INTRODUCTION

Mitchell Toomey

Vice President, Responsible Care® & Stewardship

Mitchell Toomey is the Vice President of Responsible Care® & Stewardship at the American Chemistry Council, where he leads the chemical industry's flagship Responsible Care program focused on safety, environmental performance, and community trust. He works with industry leaders and stakeholders to advance responsible operations that support U.S. manufacturing competitiveness. Earlier in his career, he spent more than 15 years with the United Nations and UN Development Programme, helping advance global sustainability initiatives and innovation programs. Mitch holds both an MBA and BA from New York University.
