

Why You Should Attend the 2026 Responsible Care® & Sustainability Conference

APRIL 26-29, 2026 | MARRIOTT RESORT HARBOR BEACH | FORT LAUDERDALE, FL

Empowering Leaders. Driving Performance. Shaping the Future.

The Responsible Care® & Sustainability Conference & Expo is the premier event for professionals committed to driving safety and sustainability in the chemical industry. Hosted by the American Chemistry Council (ACC), this annual gathering brings together industry leaders, technical experts, and changemakers to share insights, strategies, and innovations that are shaping the future of chemical manufacturing, from facility operations throughout the supply chain.

STRATEGIC VALUE

Advance Environmental & Safety Excellence

Learn how companies are embedding Responsible Care® into environmental, health and safety (EH&S) culture, product stewardship, community engagement and supply chain performance - with real-world case studies and measurable outcomes.

Strengthen Sustainability Strategy

Discover how peers are aligning sustainability with business growth, navigating climate and energy regulations, and building resilience through biodiversity, circularity, and water stewardship.

Enhance Regulatory Readiness

Stay ahead of evolving regulatory requirements and learn how to engage with advocacy and regulatory agencies to support sound policy development.

Drive Innovation and ROI

Explore how digital transformation, AI-powered tools, and data-driven decision-making are modernizing EHS performance and unlocking business value. experts, and changemakers to share insights, strategies, and innovations that are shaping the future of chemical manufacturing, from facility operations throughout the supply chain.

WHAT YOU'LL EXPERIENCE

Inspiring Plenary Sessions

Hear from engaging keynotes and senior leadership whose inspirational messages will help advance leadership and integrating safety and sustainability into core strategy and innovation.

Breakout Sessions Tailored to Your Role

Topics include climate regulation, water resilience, circular economy, biodiversity, safety culture, and product stewardship, among many more!

Workshops for Hands-On Learning

Deep dives into Responsible Care® Codes, water stewardship, and strategic communications.

Peer-to-Peer Networking

Build relationships with professionals across the industry to exchange insights and foster collaboration.

BUSINESS IMPACT

Attending this conference equips current and future leaders with the tools, knowledge, and connections to:

- Improve environmental and safety performance
- Strengthen stakeholder trust and transparency
- Support compliance and risk mitigation
- Contribute to long-term competitiveness & innovation
