

Join the Center for Biocide Chemistries: *Shape the Future of the Antimicrobial Industry*

The **Center for Biocide Chemistries (CBC)** is the premier trade association voice for companies involved in the development, manufacture, and formulation of biocidal products. We bring together more than 45 companies committed to responsible stewardship, innovation, and effective advocacy.

If your business is part of the biocide supply chain—as an active ingredient producer, end-use formulator, or service provider—CBC is your platform to help stay ahead of regulatory change, influence policy, and connect with decision-makers.

Why Join CBC?

- **Influence the Rules That Shape Your Industry**

CBC works with federal and state agencies, including the EPA, state, and international regulators, to advocate for scientifically sound, risk-based policies. Our team promotes accurate exposure models, challenges burdensome regulations, and helps regulators understand the real-world use of antimicrobial products.

- **Gain Access to Regulators and Industry Leaders**

CBC fosters dialogue with regulators, lawmakers, and industry leaders to resolve challenges and help ensure that your interests are heard.

- **Tap into a Trusted Network of Peers and Experts**

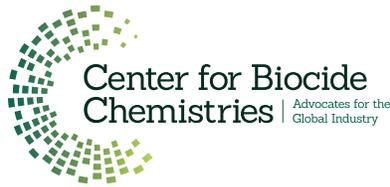

Stay informed through member communications, technical briefings, and working groups tailored to specific market sectors and product categories. CBC connects you to like-minded companies navigating similar scientific, business, and legal challenges.

- **Strengthen Your Business with Science-Backed Advocacy**

As experts in Congressional advocacy, regulatory affairs, communications, and law, our team offers the support you need to navigate complex registration processes.

- **Promote the Benefits and Uses of Antimicrobials**

CBC's robust benefits campaign explains a myriad of uses and benefits of antimicrobials. Shape future activities and utilize CBC materials in your company advocacy

Membership That Fits Your Business

CBC's tiered membership structure is based on annual sales, promoting accessibility for companies of all sizes. We also offer associate memberships for service providers, such as labs, consultants, and legal experts.

Your Voice. Your Industry. Your Future.

Whether you're looking to shape the future of antimicrobial regulation, expand your influence in the marketplace, or stay ahead of global policy changes—CBC is your partner in progress.
