Why You Should Attend the 2027 Responsible Care® Conference & Expo

FORT LAUDERDALE | MAY 2–5, 2027

Empowering Leaders. Driving Performance. Shaping the Future.

The Responsible Care® Conference & Expo is the premier event for professionals committed to driving safety and sustainability in the chemical industry. Hosted by the American Chemistry Council (ACC), this annual gathering brings together industry leaders, partners, and changemakers to share insights, strategies, and innovations that are shaping the future of chemical manufacturing, from facility operations throughout the supply chain.

STRATEGIC VALUE

Advance Environmental & Safety Excellence
Learn how companies are embedding Responsible Care® into environmental, health and safety (EH&S) culture, product stewardship, community engagement and supply chain performance - with real-world case studies and measurable outcomes.

Strengthen Emergency Preparedness
Discover how peers are reducing risk while enhancing emergency preparedness and response, supporting safer facilities and communities.

Support Industry Advocacy and a Competitive U.S. Manufacturing Sector
Learn how companies are bringing Responsible Care and stewardship principles to life for policymakers and stakeholders.

Connect Supply Chain Safety & Product Stewardship
Identify opportunities to align transportation, distribution, and product stewardship programs to enhance safety performance and support customers throughout the product lifecycle.

WHAT YOU'LL EXPERIENCE

Inspiring Plenary Sessions
Hear from engaging keynotes and senior leadership whose inspirational messages will help advance leadership and integrate safety and sustainability into core strategy and innovation.

Peer-to-Peer Networking
Take advantage of our enhanced networking sessions, with even more opportunities to build relationships across the industry, exchange insights and foster collaboration.

Breakout Sessions Tailored to Your Role
Topics include Responsible Care implementation, safety training, performance measurement, risk management, and much more, with practical insights and case studies from industry peers.

Workshops for Hands-On Learning
Deep dives into emergency response, community engagement, supply chain coordination, and safety and environmental stewardship.

Awards Recognitions
Celebrate the people, initiatives and organizations that are driving safety and sustainability in the industry.

BUSINESS IMPACT

Attending this conference equips current and future leaders with the tools, knowledge, and connections to:

- Improve environmental and safety performance
- Strengthen stakeholder trust and transparency
- Support compliance and risk mitigation
- Contribute to long-term competitiveness & innovation
